INSTRUCTIONS

1. Wipe toothbrush holder clean with damp sponge.
2. Tape along the bottom a fourth of the way up.
3. Tape around the middle.
4. Tape above the tape in the middle right before it starts curving into the top of the toothbrush holder to create a triangle.
5. Paint the larger surface area and the inside rim of the holes using a medium round brush and #62. (2 coats, allow to dry between coats.)
6. Make bubble mix with 4 tablespoons of water, 2 tablespoons of paint (#85), and a drop of dish soap. Mix well. Using a straw blow gently into the mix to create bubbles.
7. Apply bubbles to the area painted. Allow bubbles to pop and dry.
8. Gently peel off the tape that makes the triangle. wipe away any excess paint in the with a lightly damp sponge.
9. Using a medium round brush paint in the small triangle with #46. (3 coats, allow to dry between coats.)
10. Gently peel off the tape in the middle. wipe away any excess paint with a lightly damp sponge.
11. Using a medium round brush paint in between the painted area and the bottom tape with #98. (3 coats, allow to dry between coats.)
12. Gently peel off the bottom tape. Wipe away any excess paint in the triangle with a lightly damp sponge.
13. Paint the bottom using a medium round brush with #27. (3 coats, allow to dry between coats.)
14. Tape the Mickey Template over tracing paper and trace onto the the side of the toothbrush holder. (If the tracing is difficult to see, gently go over it with a pencil.)
15. With a medium round brush paint Mickey with #69. (3 coats, allow paint to dry between coats.)
16. Add 3 horizontal horizontal line accents with #31 and a small detail brush midway onto the triangle making one line longer than the other with the top being the shortest. (3 coats, allow to dry between coats.)
17. Create the illusion of Mickey's buttons by dipping your index finger into #67 paint and applying them on the red surface.
